

Conestoga Valley

SCHOOL DISTRICT

Dr. David M. Zuilkoski, *Superintendent of Schools*

October 22, 2020

CV Community -

We have recently learned that a student or staff person attending Fritz Elementary School who was recently identified as a “probable case” for COVID-19 has, in fact, tested negative. As such, the individual will still need to complete the appropriate quarantine; however, those who were identified as close contacts will be able to resume attending school tomorrow.

We have cleaned and disinfected the school following recommendations from the CDC, we will continue with the regular cleaning and disinfecting procedures that have been in place since the opening of school, and we have notified everyone who was in close contact with the person of the negative test results.

While COVID-19 continues to spread in our community and across the country, please keep these important tips in mind:

- Practice physical (or social) distancing and stay at least 6 feet apart from people outside your household.
- Stay home when you are sick. If you have a cough, fever, shortness of breath, or other symptoms of COVID-19, stay home and contact your healthcare provider.
- Wash your hands often with soap and water for at least 20 seconds.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipes.
- Wear a mask or face covering in public spaces, including at school.

Please note that individual health information, including the name of the person who was a probable case, is confidential to protect patient privacy.

For additional questions about COVID-19, please visit the Pennsylvania Department of Health website at: <https://www.health.pa.gov/topics/disease/coronavirus/Pages/Coronavirus.aspx> or the District's COVID-19 pages on the website at: <https://www.conestogavalley.org/Page/4350>.

Sincerely,

Dave Zuilkoski, EdD
Superintendent
