

Home Treatment Quick Reference Sheet

- ✓ Check all members of the household for lice and nits.
- ✓ Use a lice treatment product only on those family members who have been found to have lice or nits. Follow directions carefully – only retreat as directed. **Do not use any lice treatment products on children under the age of two.**
- ✓ Check for and remove all nits daily. **Continue this step for at least 2 weeks to ensure complete elimination.** *Reference Lice Brochure for nit removal.*
- ✓ Machine wash all clothing and bedding used two days prior to treatment. Use the hot water cycle (130 F), and dry using high heat for at least 20 minutes.
Stuffed toys/animals should be put in a sealed plastic bag for 2 weeks.
- ✓ Soak combs, brushes, and other hair care items in rubbing alcohol or Lysol for one hour or wash vigorously with soap and hot water.
- ✓ Vacuum all carpets and upholstered furniture.
